Bilal Shaikh

Frontend Developer (Fresher)

SUMMARY

Frontend Developer focused on building modern, animated, and responsive web interfaces using HTML, CSS, JavaScript, React, and GSAP. Strong interest in UI/UX, performance, and clean component-driven architecture. Experienced in cloning high-quality agency websites and translating complex designs into functional code.

SKILLS

HTML5, CSS3, SCSS, JavaScript (ES6+), React.js, Next.js (Basics), GSAP, Framer Motion, Tailwind CSS, Responsive Design & UI/UX, Git & GitHub

PROJECTS

Obys Agency Clone

Responsive animated homepage using HTML, CSS, JavaScript, GSAP, and Locomotive Scroll. Focused on smooth scrolling, typography, and transitions.

ALVY Website Clone

Pixel-perfect responsive clone built with HTML and SCSS. Emphasis on layout accuracy and modern UI patterns.

Award Website UI

Animated UI website built using React, Tailwind CSS, and GSAP with scroll-based animations.

StudioArc Landing Page

3D-style animated landing page using Three.js, GSAP, and ScrollTrigger for immersive interaction.

EDUCATION

Diploma in Software Engineering – Itech Academy
Frontend Development Certification – Sheryians Coding School
